MADRID

ADVANCED BIOMECHANICS IN ALIGNERS VS BRACKETS

Dr. Skander Ellouze

Dr. Arturo Vela

Dr. Luis González

Are you looking for advanced training in Clear Aligners?

We have selected speakers who have been working in orthodontics for more than 15 years, treating thousands of patients with braces and aligners.

Dr. Skander Ellouze, Dr. Arturo Vela and Dr. Luis González are international leaders in

their fields. We have created a training course in which we will tell you everything about the biomechanics of aligners, comparing them with cases treated with braces.

Learn how to treat the most complex cases with aligners, using the biomechanical basis of traditional orthodontics.

16 OCT 2025

PRACTICAL WORKSHOP TADS

ONLY FOR
25 DOCTORS

Only if you take the EXCLUSIVE ticket, you will have access to this practical workshop on IPR and TADs. You will get the following materials for the workshop:

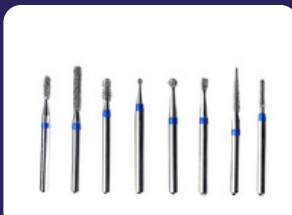

TYPODONTS

For practice IPR techniques and miniscrew placement.

BUR KIT

Complete bur kit for aligner treatment. Includes all the burs needed for IPR, occlusal adjustments and attachments removal.

TADs

Valued at more than 500€.

- 1 Manual screwdriver
- 1 Micro screw 1,5x8 mm
- 1 Micro screw 2x12 mm

17 OCT 2025

10:00 – 14:00

**VERTICAL
DISCREPANCIES**

- Intrusion and extrusion management with brackets and aligners.
- In which cases do we need to place microscrews?
- Comparison of efficacy in the management of overbite with brackets and aligners
- Fixed orthodontic biomechanics “translated” to clear aligner orthodontics

14:00 – 15:00

LUNCH

15:00 – 18:30

**TRANSVERSE
DISCREPANCIES**

- Posterior torque control with brackets and aligners.
- Management of posterior open bite.
- Expansion: Does the appliance determines the limits, or the limits will determine the appliance?
- Microscrews assisted expansion (MARPE) with brackets and aligners.

18 OCT 2025

10:00 – 14:00

SAGITTAL DISCREPANCIES

- Distalisation techniques with brackets and aligners.
- Anchorage management and auxiliary mechanics (TADs).
- From 3D diagnosis to 3D treatment plan: The role of the 3 planes of space in the correction of Class II and Class III.

14:00 – 15:00

LUNCH

15:00 – 18:30

ASYMMETRIES

- Functional vs. skeletal asymmetries.
- Shape and function: the importance of early treatments.
- Midline discrepancy: considerations and boundaries.
