WHEN TO USE THE PLANNING SERVICE?

You may have doubts about whether this service is for you.

Do I delegate my patients to other orthodontists? What if they don't suit my clinical preferences and I don't find out what's going on with my treatment?

With this dossier we want to tell you how it works and explain the main objective: to save you time and achieve predictable results.

When is the treatment planning service for you?

When you don't have enough time to do your ClinChecks properly

It doesn't mean that you don't know how to do it, it means that sometimes you have too many patients or too much work to do a good planning, which needs to dedicate enough time to avoid future refinements.

Hours, days and even weeks have to be spent on good planning:

It is better to invest time now in planning than to have to start from scratch in six months.

It is better to invest time now in planning than to have to start from scratch in six months.

Sometimes the case is really stuck or you don't even know how to start it: in this situation, let us do it for you, we advance the work and then we explain it to you.

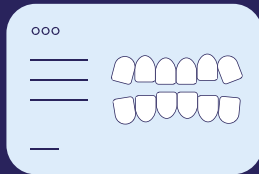

It's a simple way to get happy patients, no stress for you and learning how to plan complex cases.

When you prefer to delegate work.

There are some tasks in the clinic that you would prefer to delegate and dedicate that time to other projects or jobs: count on us, we can help you save that time.

HOW OUR PLANNING SERVICE WORKS STEP-BY-STEP

After considering the situation in which you need the planning service, let's get to know how it works:

1.

Upload the case to the aligner platform you work with.

The brand does not matter:

- Approver (Spark)
- iORTHO (Angel Aligner)
- ClinCheck (Invisalign)
- Cualquier otra marca

2.

Make the purchase of our service.

Choose the pack that best suits you and upload it to our platform.

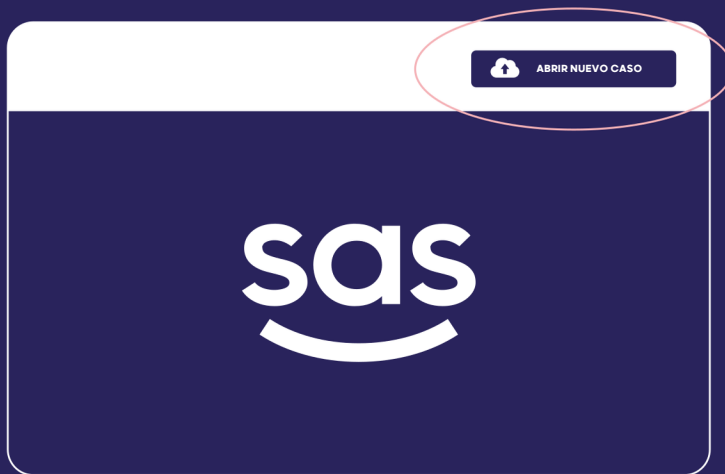

PACKS AND PRICING

Access to the private case platform and make the purchase of the pack you need.

TREATMENT PLANNING	TREATMENT PLANNING PRO
Planning of 1 case	Planning of 1 case
50% discount on future refinements	Price includes ALL refinements for this case.
 <u>199€</u>	 <u>349€</u>
PACK OF 5	PACK OF 5
Save 40€ on each planification	Save 90€ on each planification
 <u>799€</u>	 <u>1.299€</u>

OUR PLATFORM

Now it is time to upload it to
our platform:

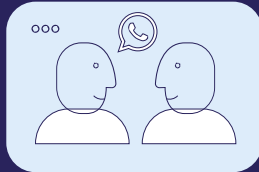

At the top right, open a new case.

Fill in the information requested in the form, your access data to your aligner platform and the necessary information about your patient.

As soon as you upload the case to our platform, you don't need to do anything else, the orthodontic team will receive the case and will take over the management of it.

In 7 to 14 days your case will be ready for you to approve it.

OUR PLATFORM

3.

During these days we will activate a private WhatsApp with the assigned doctor to be able to talk and consult doubts about your ongoing cases.

In this chat you can ask any questions or follow up on the cases that our team is planning. In no case you will be able to ask any other kind of doubts about cases or planning that we are not doing.

4.

Once we consider the case ready for approval you will receive a detailed report (email and WhatsApp) so that you understand the treatment plan and that within a time, you can carry out the planification.

At that point you must assess the case and you have two options:

YOU AGREE WITH THE PLANNING:

Approves the case.

YOU DISAGREE WITH THE PLANNING:

Let us know through the WhatsApp and we will adapt to your clinical preferences.

BENEFITS OF USING OUR PLANNING SERVICE

Saving Time

We will handle the complete planning: in no case will you have to make any modifications or let us know when they send you the ones we have requested, we will be attentive.

Reducing the number of refinements

We take the necessary time for each planning, so we will reduce future failures or additional aligners.

Making clear aligners cost-effective

Having fewer refinements, the cost per treatment will be lower and also, you will have enough time to be able to get more patients.

Achieving more certainty when approving cases

Especially when you first start working with aligners, passing cases confidently is very difficult, so this service will help you speed up the learning curve.

FREQUENTS QUESTIONS

From 7 to 14 days. Isn't that a lot for a planification?

It is better to spend enough time before starting treatment than to have to perform two or more refinements, the delay time will be much longer and the treatments will take too long, thus increasing the cost.

Who performs the treatment planning?

Complete case planning is always performed by Dr. Luis González Barbero.

If I disagree with the selected treatment, can it be modified?

Yes, through the WhatsApp that you will have available with the medical team, tell us your preferences and we will adapt it without any problem.

Do you approve the cases?

No, we will simply guide you on how to perform the planification.

How do I know the case is ready to approve?

We will send you a WhatsApp to tell you about the report we have prepared for you and that you can approve it.

I have questions about the modifications or the case you are planning, how do I contact you?

You will have access to WhatsApp with the medical team to consult all the doubts you have about the cases that are in progress with us.
