VS

WHAT SETS US APART

Not just another course

NOT ANOTHER WEEKEND COURSE

The difference isn't watching more theory, but solving **your own cases** over a year, with several mentors and questions answered whenever you need them.

OTHER COURSES	ACCELERATOR II
~~3 weekends~~	1 year
~~Watch other people's cases~~	Work on your own cases and solve them
~~A single way of working~~	Several mentors
~~No way to ask questions~~	Ask anything you need
~~Theory only~~	Practice with your real patients
~~You see the theory only once~~	Theory to review as many times as you need and take notes

01

WHY THIS PROGRAM

Master complex cases with confidence

THE WHY

The **advanced Angel Aligner system** opens the door to treatments that once seemed impossible. We train you to handle them with confidence, with experts who have treated thousands of cases.

Cases that get stuck

Crossbites, Class III, growing patients... cases where the lab doesn't approve on the first try.

Decisions with judgment

You'll know when to expand, when to refer and when to wait. No guessing.

Without wasting time

Real support from system experts. Unlimited cases for 12 months.

HOW YOU'LL GET THERE

From theory straight to your own cases

No piling up theory you never apply. For a year you bring your real patients to the sessions, plan them with the mentors and resolve questions right when they come up.
