ADVANCED BIOMECHANICS IN ALIGNERS VS BRACKETS

Dr. Skander Ellouze

Dr. Arturo Vela

Dr. Luis González

Are you looking for advanced training in invisible orthodontics?

We have selected speakers who have been working in orthodontics for more than 15 years, treating thousands of patients with aligners.

Dr. Skander Ellouze, Dr. Arturo Vela and Dr. Luis González are international leaders in

their fields. We have created a training course in which we will tell you about the biomechanics of aligners, comparing them with cases of braces.

Learn how to treat the most complex cases with aligners, using the biomechanical basis of traditional orthodontics.

16 OCT 2025

PRACTICAL WORKSHOP ON MICROS

**EXCLUSIVE FOR
20 DOCTORS**

Only if you take the EXCLUSIVE ticket, you will have access to this practical workshop on IPR and micro-screws and you will be able to take it home:

TYPODONTOS

For the IPR, occlusal grinding and micro practices ONLINE.

STRAWBERRY KIT

The drills needed for IPR, occlusal adjustments and attachment and removal of attachments.

MICRO SCREW KIT

Valued at more than 500€.

- 1 manual screwdriver
- 1 micro screw 1,5x8 mm
- 1 micro screw 2x12 mm

17 OCT 2025

10:00 – 14:00

**VERTICAL
DISCREPANCIES**

- Control of intrusion and extrusion with brackets and aligners.
- When do we need to place micro-screws?
- Comparison of efficiency in the management of overbite with brackets and aligners.
- Application of fixed orthodontic biomechanics in invisible orthodontics.

14:00 – 15:00

LUNCH

15:00 – 18:30

**CROSS-CUTTING
DISCREPANCIES**

- Posterior torque control with brackets and aligners.
- Management of posterior open bite.
- Expansion: Does the appliance determine the limits, or does the appliance determine the limits?
- Disjunction with micro-screws (MARPE) with brackets and with aligners.

18 OCT 2025

10:00 – 14:00

**SAGITTAL
DISCREPANCIES**

- Distalisation with brackets and aligners.
- Management of anchorage and auxiliary mechanics (TADs).
- From 3D diagnosis to 3D treatment plan: The role of the 3 planes of space in the correction of Class II and Class III.

14:00 – 15:00

LUNCH

15:00 – 18:30

ASYMMETRY

- Functional vs. skeletal asymmetries
- Form and function: the importance of early treatment
- Midline discrepancy: considerations and boundaries

LOCATION

HOTEL MELÍA INNSIDE VALDEBEBAS
